

July 14, 2025

The Honorable Marjorie Taylor Greene
Chair, Subcommittee on Delivering on Government Efficiency
U.S. House of Representatives
Washington, D.C. 20515

Dear Chairwoman Greene,

I write to you as Executive Director of American Parents Coalition with serious concerns about the YMCA's use of federal funds to support policies that endanger children, disregard parental rights, and violate federal law.

Earlier this month, I filed a Title IX complaint with the Departments of Education, Health and Human Services, and Housing and Urban Development outlining how YMCA affiliates across the country are allowing biological males in girls' locker rooms, bathrooms, and overnight cabins. In many cases, parents are not informed. These practices stem from national directives issued by YMCA USA that promote and facilitate radical gender ideology over the legal and ethical obligation to protect minors.

The YMCA receives more than \$600 million in federal grants annually and is therefore subject to Title IX, which prohibits discrimination on the basis of sex. Its policy recommendations and guidance, which disregard biological sex in the administration of intimate facilities, place girls in vulnerable situations and raise serious questions about compliance with federal law.

Given your leadership on government oversight, I respectfully urge the subcommittee to investigate whether the YMCA is misusing public funds to implement policies that violate statutory protections and bypass parental consent. We would welcome the opportunity to brief your staff and assist with any inquiry moving forward.

Enclosed, please find the letter we submitted to the aforementioned agencies which provides a detailed account of what our organization has uncovered.

Sincerely,

Alleigh Marré

Alleigh Marré
Executive Director
American Parents Coalition
